

# ASPA EHR Facilitation Service

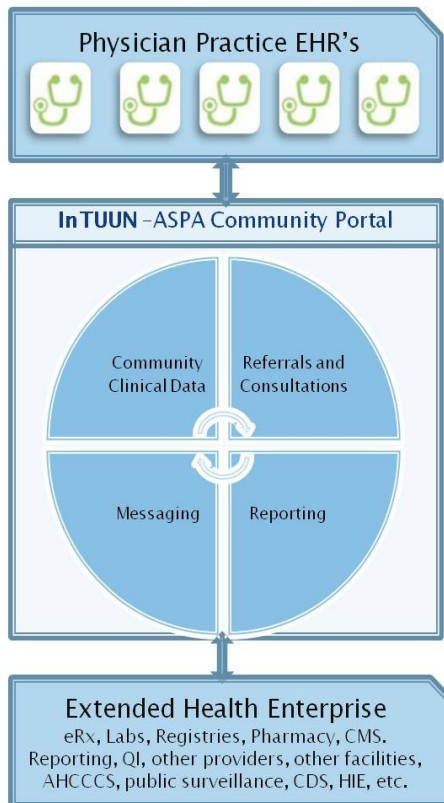

## ASPA PHYSICIANS

THERE IS MUCH TO CONSIDER WHEN IMPLEMENTING AN EHR!

EHR Vendor Selection, Meaningful Use, REC, Training, Development, Hardware, Certification, Hosting, Web-Based, Client-Server, Clinical Decision Support, eRx, HIE, Integration, HL7, CCD, CCR, PHR.

*Which Electronic Health Record vendor is best for me? If the EHR is certified for Meaningful Use, am I set? What is Meaningful Use and how do I get there? How do I get government funding? What is this going to cost me, really? What is the Regional Extension Center? Should I use them? Who do I believe when I have consultants saying different things? What about sharing my clinical information?*

At ASPA, we work with you, our members, on a regular basis already. Navigating the complexity of EHR adoption is difficult. We understand this and we also know that your focus needs to be clinical, not technical. As a trusted partner of ASPA members for decades, we are prepared to provide you with the expertise and capability necessary to succeed in your EHR journey.

As a participant in the ASPA EHR Facilitation Service, we're confident that you will find us to be a **Most-Trusted-Source**. We provide the following benefits and services to ASPA members:

- EHR implementation and training services
- Leveraged benefits of a team EHR project
- ASPA Community Portal participation
- Controlled cost, reduced risk approach
- Collaboration, sharing and savings with peers
- ASPA approved and integrated EHR choices, or
- Your own selected certified EHR
- Access to InTUUN EHR integration services
- Shared and cooperative development with peers
- Other value added services

Meaningful Use Funding: \$44,000 Medicare, \$64,000 Medicaid

ASPA EHR Facilitation Service- creating Meaningful Users

## Introducing the ASPA EHR Facilitation Service

Lower Your Risk \* Manage Your Cost \* Improve Clinical Operations  
Make Better Informed Clinical Decisions \* Meaningfully Use Your EHR

ASPA has created this service to help guide you through the complexities and implementation challenges of meeting the requirements of Meaningful Use. With this compelling member service from ASPA, our goal is to **lower your risk**, **manage your cost**, and **guide you to a successful EHR implementation**. We are prepared to provide your practice:

- Leadership, guidance and capacity
- A select group of EHR vendors who have agreed to collaborate with ASPA or the ability to select any certified EHR vendor of your choice
- Experienced resources to manage your EHR implementation and configuration
- Training for you and your staff on your selected EHR
- Shared resources and management capability across ASPA member physicians
- Improved quality and efficiency of your EHR
- The ability to create Meaningful Users

**Choose an ASPA approved EHR vendor or select your own**

By pursuing your EHR implementation with the ASPA EHR Facilitation Service we help you with your complete and comprehensive needs. You receive substantial benefit as part of the ASPA community:

- Become part of an integrated project benefiting all ASPA members
- Participate with physician colleagues, implementing and learning with them
- Share resources, tools and methods with your peers
- Participate in the ASPA Community Portal as part of this service
- Take advantage of the InTUUN Clinical Integration Services
- Simplify implementation and continuing support as part of ASPA
- Access skilled clinical mentors to help with the transition

Watch for web seminars and live physician education sessions coming up. Go to [www.azspa.com](http://www.azspa.com) for more information, email us at [ehr@azspa.com](mailto:ehr@azspa.com) or call us at 855.ASPA.EHR (855.277.2347)
