New ASPA Partner !

EconoServe Solutions offers a complete range of services to support medical practices with their EMR, technology services and billing needs. These solutions are built upon tried and tested components from leading technology companies and delivered by a highly trained and capable team of professionals.

Services offered:

- EMR solutions - design, implement, customize, train and support CCHIT certified, world class EMR solutions from McKesson including painfree upgrades from Medisoft and Lytec systems
- Technology projects and support services - Flexible pricing options including a unique, low fixed fee model ensures no "nickel and diming"
- Medical billing - proven ability to improve collections, AR work through projects, consultative engagements to develop optimal billing strategies and present simple, graphical reports designed to explain what's going on and what needs to be done!

EconoServe's clients benefit from the company's seasoned team and unique business model:

- Professionally managed by highly qualified, experienced technology and process management executives with senior leadership experience in Fortune 500 organizations.
- Process driven approach aimed at 'getting it right the first time'
- Leverage automated tools to minimize labor needs and labor costs
- Benefit from large scale of operations to negotiate superior discounts and pricing
- Smart work-force, trained to create simple, innovative solutions to solve even the most complex of your technology challenges
