New ASPA Partner !

MDPathways – Who you practice with Matters.

MDPathways has revolutionized the practice search by allowing physicians to anonymously view aspects of a practice, hospital and community, all within a private network, and through the voice of their peers.

MDPathways.com provides physicians access to an active online platform, delivering authentic practice opportunity information, while bypassing static marketing messages and time consuming recruitment calls. Facilities post practice opportunities and use their own physicians to brand their facility through viral videos. This revolutionary approach allows the candidate to anonymously view aspects of a practice, hospital and community, all within a private network and on their own time.

MDPathways.com eliminates the need for high-priced recruiting firms, saving hospitals and physician groups hundreds of thousands of dollars during tight economic times. Our site brings the essence of the work itself back to the forefront of the search equation. Physicians don't want sales information—they want authenticity.

ASPA Members receive discounted pricing up to 40% for this new cutting edge recruitment service.

For more information about this program, complete the information below and return Fax to ASPA at 602-265-3289.
