Receive Up to \$600.00 Bonus per Year!

Through the relationship with RMN, an ASPA Member who participates by installing an RMN digital screen, can receive up to a \$600.00 Bonus per screen per year from ASPA!

Reliable Medial Network, LLC is an innovative digital media company that links health related messages and services to patients in the comfort of their physician's office. New treatment options, new medical procedures, detailed information about your practice, and even current world news can be viewed directly by the people whose quality of life it stands to improve. The main zone and side zone of an RMN display provide full motion, sound and static information. Trivia, nutrition information, exercise tips for healthy living and world news are just a few examples of what your patients will view on an RMN display. Your waiting room is transferred into a pleasurable experience for your patients.

Studies show that providing patients with product and program education through digital signage may increase disease management compliance over 53%. Our goal is to improve the healthcare experience for practitioners and their patients. RMN supports the American Diabetes Association, the American Heart Association and the American Red Cross.

Digital Displays are FREE for ASPA Members!! NO installment costs!! Just a pleasurable experience for your patients AND the possibility of a year end bonus!

For more information about this program, complete the information below and return Fax to ASPA at 602-265-3289.
